Planetarium

The planetarium got dark.

One by one you started to see stars on the ceiling

It looked just like the night sky. A man's voice came over the speaker

He said: "hello As you can see it's dark now..." His voice was crystal clear, he was a little bit old but sounded so smart, like a really nice guy.

as you can see...

I looked at the stars.

Someone would draw lines from one star to another to show you the constellations.

the seats in the planetarium were so comfortable, the air was so nice.
